Deciding where

Reading your
favorite blog

Follow these steps to get registered

1. Go to LincolnFinancial.com/Register and create a username and password.
2. Log in using your new information and register a telephone number to enroll in mandatory two-factor authentication (TFA). We'll send a confirmation code to your phone via your chosen method – either a text message or a phone call.

During your next login, Lincoln will send a six-digit code to your phone via your preferred method. Enter the code into the website to complete your login.
3. You will also have the option of using an authenticator app to enroll in TFA. This method will require you to download an authenticator app of your choice, add your Lincoln account, and scan a QR code. The app will generate a one-time password you will enter on the website to complete TFA registration.

During your next login, open your chosen authenticator app to generate the time-based, one-time password and enter it on the website when prompted.

With both methods, you have the option to select **Remember this device**. If you check this box, you won't be prompted for TFA on that device for 30 days.
